PRICE FIVE CENTS

TWO GERMAN REGIMENTS REPORTED ANNIHILATED BY FRENCH TROOPS

PROTESTS ARE REGISTERED AGAINST EXTREME CENSORSHIP IMPOSED

NURNBERG, LAST REPORTED AT MIDWAY, AND LEIPZIG ARE WATCHING ON PACIFIC COAST

(Associated Press by Commercial Pacific Cable.)

SAN FRANCISCO, Cal., August 12.—The German cruisers Nurnberg and Leipzig are lying off Golden Gate. The sailing of the Pacific Mail liner Persia, which is under British registry, has been cancelled.

Seventeen other British vessels and two French vessels are tied up here.

The Canadian cruiser Rainbow and the British sloop-of-war Algerine got away safely to the north. The whereabouts of the little British war-vessel Shearwater are unknown.

Some anxiety has been caused because wreckage from a British warship came ashore here, believed to be from the Rainbow, which was cleared for action when she stole out of San Francisco Bay before dawn last Saturday.

AMERICA TAKES STEPS FOR SUBJECTS ABROAD.

(Associated Press Service by Federal Wireless.)

WASHINGTON, D. C., August 12.—Orders from the state department today have been sent out to many European capitals authorizing the American embassies abroad to charter neutral foreign vessels so that the thousands of Americans stranded on the continent and elsewhere may return to the United States.

American vessels on the Atlantic and Pacific will be kept on their regular runs in an endeavor to minimize the congestion of traffic already threatened.

WASHINGTON, D. C., August 12.—All of the American battleships now stationed in Mexican waters near Vera Cruz will come north before September, according to a decision reached and made public today by the administration and the navy department.

PARIS, France, August 12.—The French foreign minister says that the French troops now hold all the crests and passages of the Vosges mountains and that France continues to command northern Alsace.

MAASTRICHT, Province of Limburg, Netherlands, August 12.—Terrific artillery firing is heard in the direction of Tongres. The concussion is plainly felt here.

Local Japanese Papers Learn Blue Pencil Works Overtime

For reasons unknown locally, the Japanese government, as well as all cable offices at Tokio, Japan, evidently have placed a strict censorship on all cable news filed in the capital and destined for Hawaii. This became known this morning when the Nippu Jiji, following the receipt of a dispatch intended for news purposes, received a message from its Tokio correspondent to the effect that he has been forbidden by the Japanese government to forward to Honolulu any messages dealing with negotiations between Japan and the United States. It was not stated whether he is to be allowed to forward messages of a general news nature and not pertaining to the present situation in the Far East.

Further evidences of strict censorship developed when the Hawaii Shimpo informed the Star-Bulletin that its Tokio correspondent has been forbidden to send any cable news whatever to the Hawaiian Islands. A cable dispatch to the Shimpo from Tokio was received this morning to this effect. The cable office refused to take its correspondent's messages, says the Shimpo.

At the Hawaiian-Japanese Daily Chronicle office the Star-Bulletin was informed that since the middle of last week that publication has received no cable news from its correspondent in Tokio. A query forwarded to Tokio by the Chronicle a few days ago remains unanswered. The Hawaii Hochi received two cable dispatches from Tokio yesterday afternoon. Thus far, that paper has received no notice that its service is to be stopped.

To present a minimum of resistance to the air, all the stay wires and angular surfaces of a new French aeroplane are enclosed within a scientific body.

Electrical machinery enables the newest transatlantic liner to lower its largest lifeboats filled with passengers from the highest deck to the water in seventy seconds.

Sugar Is Now 5.88

(Associated Press by Fed. Wireless.)
NEW YORK, N. Y., Aug. 12.—New records were today set by sugar, the big demand sending prices higher and higher.
Fine granulated is now selling at 6.50 to 7 cents.
Centrifugals 5.88. The demand is active, and holders expect higher prices.

SAN CARLOS HAS SOLD HALF ITS SUGAR AT 5.25

News of a big sugar sale and one that shows the demand and consequent jumping price of raw sugar on the eastern seaboard came in a cablegram yesterday afternoon that has made the stockholders of San Carlos Mill the Company happy. Half of a recently arrived cargo, 1540 tons, sold in New York yesterday at 5.25 cents per pound.
The San Carlos Company operates a big sugar "central" or mill in North San Carlos district, Negros, Philippines, and recently sent to market by the British merchantman Satsuma 3080 tons of sugar, which is virtually the company's share of the crop. It has handled in the San Carlos district. The cargo arrived yesterday when the demand was tremendous and half was snapped up at 5.25. This amounts to \$161,700 gross.
The San Carlos Company was promoted by A. D. Cooper and its stock is largely held in Hawaii.

AD CLUB TO WORK TO AID SOLDIER STATIONED HERE

Enlisted Man Calls for Action
for Benefit of All—Civilian
Clothes Greatly Desired

Soldier day will go down in Ad Club annals as a red letter day of that organization. There was more horse sense and a better mixture of sentiment and solid fact than has been heard around the Tuesday luncheon board for some time past.
"What can Honolulu do for the enlisted man of the army?" was the basic theme on which a number of clever speakers elaborated, touching the subject from several different angles, and giving a broad, general insight into one of the most important questions that Hawaii has to face for its own profit as well as for ethical reasons.

The keenest insight into the situation, and withal one of the most interesting talks that has been given at the Ad Club for a long time was that of Regimental Quartermaster Sergeant E. W. Ely, 2d Infantry, who spoke at length and in a vein that caught the fancy of hearers from first to last.

"The soldier is a realist," said Sergeant Ely in the course of his talk. "Paradise itself wouldn't give every soldier on Oahu all that he wants, but a real solution by the people of Honolulu should mean a state of affairs where the cooperation of the army and civilians could do something for everybody."

MONUMENTS

Granite, Marble, Blue Stone
Coping and Iron Fence.
H. E. HENDRICK, LTD.

WAR OVERCOMES HIS HOLINESS

POPE PIUS X

(Associated Press Service by Federal Wireless.)
ROME, Italy, August 12.—Grief over the European war has overwhelmed the Pope. He sits listlessly for hours at a time. He is not physically sick but his threatened prostration is alarming.

WM. T. RAWLINS IS A CANDIDATE FOR THE HOUSE

Experienced as Attorney and
Legislator, His Election
Sure, Say Friends

William T. Rawlins, attorney, former assistant district attorney and also former member of the house of representatives, has decided to become a candidate for the house again and his nomination papers were being circulated and largely signed today.
Though there are a number of candidates from the fourth district, Rawlins as well as the Republican political leaders are confident of his election, as he has a large following and is popular with all classes of voters.
Furthermore, it is pointed out that if elected he will be the logical man for chairman of the judiciary committee. Neither A. L. Castle, chairman in 1911, nor W. J. Sheldon, chairman in 1913, is running for the house this year and no candidate is in sight, say the political observers, who can fill the position except Rawlins. He is certain to carry the precinct heavily, in the opinion of Republican workers.

GASOLINE EXPLODES; DANGER THREATENS IN FIRE ON BOARD SCOW

(Special Star-Bulletin Wireless.)
HILO, August 12.—Fierce flames followed the explosion of 120 drums of gasoline from the Matson steamer Enterprise which had been transferred to a scow in the Waialae river last night.

The flames shot to a height of 300 feet and the arehouse, wharf, the Enterprise and a schooner were in danger of the flames for a great length of time.

Eventually the scow was towed to sea, only after the greatest bravery had been shown in getting lines on to the scow.
The total loss is estimated at \$5000, the gasoline belonging to the Matson company.

JOHN L. FLEMING TO FILE PAPERS FOR SUPERVISOR

Businessman Stands for Efficiency in City Government
and "Square Deal"

Following his declaration of several weeks ago that he would be willing to run for supervisor on a platform of efficiency and businesslike administration, John L. Fleming, of James F. Morgan Company, is today filing his nomination papers as a Republican.
Strong assurances of support have been given Fleming that if his name goes on the ticket the voters of both the Fourth and Fifth districts—he is a resident of the latter—will stand by him. He is popular among the Hawaiian voters and his business experience and interest in public affairs has guaranteed him, say his friends, the practically unanimous support of the businessmen of Honolulu and outer districts.

Fleming believes that the city can be run in a more businesslike way and that there is opportunity for public-spirited men to go to the front and offer their services. Though he is a staunch Republican, he is not making his fight on a strictly partisan basis but on a platform demanding the greatest good for the city.

M'CANDLESS IS NOT GOING TO QUIT THE RACE

(Special Star-Bulletin Wireless.)
HILO, Aug. 12.—L. L. McCandless, when confronted with the demand of Palmer P. Woods that he live up to an alleged agreement with Woods and withdraw from the race for delegate,

GERMANS AND AUSTRIANS BOTH DECLARED TO HAVE RECEIVED SEVERE REVERSES

(Associated Press Service by Federal Wireless.)
ROME, Italy, August 12.—Special dispatches to Rome newspapers say that two German infantry regiments have been annihilated at Mulhausen in an engagement previous to the last reported.

Other special dispatches report that a superior force of Cossack soldiers backed by artillery has exterminated an Austrian cavalry brigade.

When the Austrians found they were outnumbered, the reports say they endeavored to retired across the frontier. They galloped into a marsh and all are declared to have been shot.

It is reported that the Montenegrins have captured Soutari.

NEW YORK, N. Y., August 12.—The Marconi Wireless Company has entered a vigorous protest against the drastic censorship imposed on wireless messages. President Griggs of the company says that he is unable to discover any statute, treaty or rule of international law under which messages are forbidden as they now are.

WAR DECLARATION EXPECTED.

LONDON, England, August 12.—It is expected that war between Great Britain and Austria will be declared tonight.

PRIEST WOULD WEAR UNIFORM.

ST. PETERSBURG, Russia, August 12.—Father Bulatovich, superior of the Monastery of Mount Athos, a former officer of the guards, has requested that his commission be restored.

It is the purpose of the priest to lead the troops wearing the uniform over the cowl as the crusading monks did in the Tartar invasion of the 13th and 14th centuries.

LONDON, England, August 12.—Vigorous bombardment of the forts at Liege has been commenced by the Germans, carrying out their plans to reduce them by a heavy artillery fire.

SAYS KAISER UNWILLING TO SACRIFICE MEN.

BERLIN, Germany, August 12.—Gen. Von Stein, commanding the German forces which attacked Liege, denies that he lost 20,000 men. He does not give the figures.

He explains that the attack on Liege has been suspended because the Kaiser is unwilling to sacrifice men unnecessarily. He predicts that the Germans will reduce the forts without losing a single German soldier when the heavy artillery arrives.

GERMAN DESTROYER STRIKES OWN MINE.

COPENHAGEN, Denmark, August 12.—The German destroyer reported sunk off South Gedser when her boiler exploded was really struck by a German mine, which was the cause of the disaster.

RUSSIANS ORDER FINNS TO FLEE.

ST. PETERSBURG, Russia, August 12.—The Russian command has ordered all inhabitants to leave Sveaborg and Helsingfors, Finland. A battle and a new bombardment are imminent.

NEW YORK, N. Y., August 12.—The censors in Europe are imposing such drastic rules on correspondents that none but meager and insignificant dispatches were coming to New York this afternoon from the scene of war.

Many of the dispatches are virtually duplicates of earlier news from other sources.

AUSTRIAN FLEET BLOCKADES MONTENEGRO.

VIENNA, August 12.—The Austria fleet in the Adriatic Sea is now blockading the entire Montenegrin coast.

BRUSSELS, Belgium, August 12.—The German forces yesterday began departing from Liege, the movement today being more pronounced. They are advancing through the heart of Belgium toward the French border. The main body of German cavalry is advancing along the entire front of the allied armies opposing them.

AMSTERDAM, Netherlands, August 12.—The second attempt of the German forces to cross the River Meuse, spanning it with a pontoon bridge at Herstal, was successful. The invading artillery is now crossing the bridge. Some pieces of ordnance are going to Liege and some toward the second line of
